

# How to Create Audio Clips & Video Clips for Impress Presentations

## Audio Clips

- ◆ You will need a mic that inserts into back of your computer
- ◆ go to All Programs / Accessories / Sound Recorder
- ◆ Play the song that you want to get a clip from and record it onto Sound Recorder
- ◆ Name your sound clip file appropriately, and put in the same folder with your Impress presentation

## Video Clips

- ◆ Go to <http://www.nchsoftware.com/streamvcr/index.html>
- ◆ Find the following, and download the free version of **FlashLynx**:

A free version of FlashLynx is available for non-commercial use only. The free version does not expire and includes most features of the professional version. If you are using it at home, you can [download the free version here](#).

- ◆ Copy and Paste the URL address of the YouTube video you want to use into FlashLynx
- ◆ In **Download As**, choose .wmv
- ◆ Click on **Download**
- ◆ Go to **Windows MovieMaker**
  - ◆ Import your video, and remove all that you aren't going to use in your presentation.
  - ◆ Create a movie
  - ◆ Put your movie in the same folder with your Impress presentation
